Createspace Independent Publishing Platform, United States, 2015. Paperback. Condition: New. Language: English. Brand new Book. WARNING! This book is the result of over four decades of research and experiments conducted by the author in the field of self-improvement of thinking in the decision-making process used to solve problems of high complexity, including improving performance in educational games online and in educational software. If poverty and crises of all kinds are expanding almost everywhere, this happens because sometimes activities of organization and management are not efficient. What can be done to improve these very important activities you can learn from this manual. You will find out how can be used recently discovered law of nature -The Universal Model of Organization and Management - to improve your decisions in order to maximize profit and performance in business and in your life. The process of profit maximization can be developed successfully if your business is organized and managed as an adjustable cybernetic system on the scientific basis of this natural model, after which they were created and work all high performance systems in universe. You will learn to build correctly and quickly the systems needed to achieve all your goals. In this book are first analyzed and redefined in a systemic vision all fundamental concepts relating to systemic organization and scientific management of complex human activities, including business and strategic chess game. How can practically be used this law of nature to improve the managerial decisions it shows into a final didactic study of thinking in strategic chess game, with examples of games played against the computer, almost move-by-move presented by commented chess diagrams. This detailed and pictured mode of presentation, allows profound understanding of the game, both as a whole and in detail, and how to play simultaneously for fulfillment of strategic...
